

LED Plug n'Play
Landscape Fixtures

professional-grade series from

LED landscape lighting designed to fit every need...including profit.

You want to give your customers the best possible products while remaining affordable for them, yet profitable for you. The solution is professional-grade line of LED plug n'play landscape fixtures from Super Bright LEDs. The series features fixture housings made from solid brass, stainless steel, and cast aluminum, with plug n'play connectors that make installation easy.

These versatile, heavy duty fixtures are enhanced with a sleek design style and advanced optics for even greater energy efficiency. Each fixture is fully-potted and sealed featuring a range of color temperature choices and a variety of beam pattern options, making them the best choice for any landscape lighting job. The diverse collection includes a variety of fixtures for spot / flood lighting, up-lighting, down-lighting, and underwater applications.
