

**Round Acrylic Suspended Extrusion
60x1000/2000mm LP-R560**

Technical data:

Tube Linear Pendant luminaire

Tube Linear Pendant a multifunction LED profile system made of extruded aluminum with an opal diffuser, which can be surface mounted or suspended. The minimalistic design and varied profile options allows for endless possibilities and lighting designs.

This LED profile incorporates flexible LED strip series Available in 1m & 2m manufactured with Further benefits include increased rear heat sink for LED strips, improved LED lifetimes. LED profile is supplied in lengths of 2meter and can easily be mounted to any surface in any length. finish is 6063 silver anodized aluminum. Supplied with end caps .

Lighting Area 3-5 square meters

Optics 120° beam angle

input voltage 24Vdc

LED power 24W LED source SMD Microchip

Color temp 3000K 4000K 6500K

CRI ≥80 Total Lumens 2160lm

Dimension Dia60mm*L1000mm

Lifespan ≥30000h

Working temperature -30°~50°C

CE, IP20, Protection Class II

Make: Lumeplus LP-R560

Suspension Kits
