Decorative Double Layer Chandelier (Without Flower)

The Decorative Double Layer Chandelier is a perfect combination of clean lines and soft gold finishes. The Double Layer Chandelier that is created, with an ironic and matter-of-fact reference to a chandelier, effectively and beautifully illuminates a room with the light refracted in the glasses. In addition, the glasses can be removed and filled with different contents, adding design dimensions to the lamp. The Double Layer Chandelier hangs by a steel wire from a ceramic ceiling rose. The glass fixtures convey motion and fluidity, but are anchored in the pure modern architecture of its form. features arms and metal banding to offer a clean streamlined look.
