

ORBIT Slim Ring Pendant

PC Snap in LENS

LED ring light, designed to deliver strong and streamlined direct down-lighting. With its perfectly circular design, the ORBIT extruded curved profile offers an ultra-sleek and elegant pendant light solution for various settings such as receptions, conference rooms, and retail outlets. Available in powder-coated black or white finishes, and with other finishes available upon request, this circle pendant light is versatile and customizable to suit your specific requirements. To cater to different lighting needs, the pendant light is supplied with a remote non-dim or dimmable driver.

By combining different sizes of these circular pendants, you can create a breathtaking visual effect for your project, adding a touch of sophistication and style. A glare-free reflector, and adjustable suspension kits, ensuring both durability and versatility. Choose from a variety of diameters and finishes to seamlessly integrate this pendant light into your space. Our professional-grade LED ring light promises to elevate the ambiance and aesthetics of any environment, providing a sleek and efficient lighting solution that meets your high standards.
